Embractive EHS Solutions LLC

Company Profile 2026

Qatar's trusted partner for comprehensive Environment, Health and Safety consultancy and professional training.

About Us

Embrasive EHS Solutions LLC (EEHSS) is a Qatar-based provider of comprehensive Environment, Health and Safety (EHS) consultancy and professional training services. We deliver practical, risk-based solutions that help organizations strengthen workplace safety, achieve regulatory compliance, and build sustainable safety cultures.

Founded on more than **20 years of industry experience**, our expertise spans healthcare, events, corporate environments, construction activities, education institutions and high-risk operational settings. We work closely with clients to develop tailored solutions that integrate international best practices with local regulatory requirements.

Our approach goes beyond compliance. We focus on creating safer workplaces through proactive risk management, operational excellence, competency development, and continuous improvement.

Vision, Mission & Core Values

Our Vision

To be recognized as Qatar's leading provider of innovative environmental, health and safety solutions, delivering measurable value and setting new standards of excellence across multiple industries.

Our Mission

To empower organizations with practical and effective EHS solutions that improve safety performance, ensure regulatory compliance, strengthen organizational resilience, and support sustainable operational success.

Core Values

Service

Delivering responsive and client-focused solutions tailored to operational needs.

Integrity

Maintaining transparency, professionalism, and ethical practices in every engagement.

Excellence

Pursuing the highest standards through technical expertise, innovation, and continuous improvement.

Collaboration

Building strong partnerships with clients and stakeholders to create lasting positive impact.

Why Choose Embractive EHS Solutions

We combine deep industry knowledge with practical delivery to help organizations achieve lasting safety performance improvements.

Industry Experience

Over 20 years of combined environmental, health, safety, and operational expertise across diverse sectors.

Practical Solutions

Real-world EHS programs designed for implementation and measurable results — not just documentation.

Proven Project Delivery

Successful delivery of complex projects requiring integrated safety management across multiple stakeholders.

End-to-End Support

From strategy and planning through implementation and ongoing monitoring — we stay with you throughout.

International Standards

Services aligned with Qatar regulations and internationally recognized best practices including ISO and NEBOSH.

Consulting Services

Healthcare Accreditation & EHS Compliance

Supporting healthcare facilities through accreditation requirements and implementation of robust EHS systems.

- Gap assessments and readiness reviews
- Documentation development
- Mock surveys and accreditation support
- Compliance monitoring

EHS Manuals & Policy Development

Development of practical and customized documentation tailored to your organization's operational context.

- Health and Safety Manuals
- Emergency Response Plans
- Standard Operating Procedures
- Job Hazard Analyses and Compliance Programs

Safety Programs & Culture Development

Tailored programs designed to strengthen workplace performance and embed a lasting safety culture.

- Behavioral safety and ergonomics
- Employee engagement initiatives
- Performance indicators and KPIs
- Continuous improvement programs

Risk Assessment & Emergency Preparedness

Comprehensive risk management services to identify hazards and prepare organizations for any scenario.

- Hazard identification and facility inspections
- Emergency planning and tabletop exercises
- Crisis preparedness and response planning

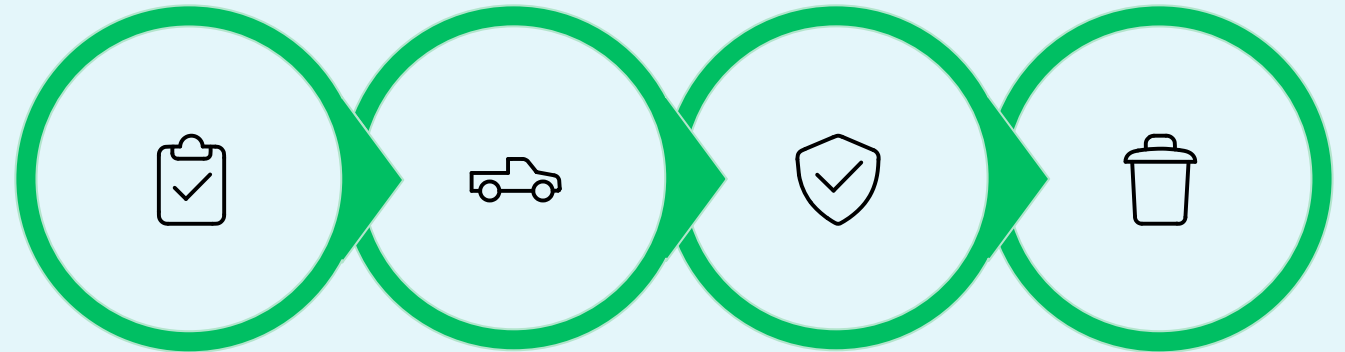

Featured Project: Web Summit Qatar 2026

CLIENT: WEB SUMMIT

VENUE: DECC, DOHA

Embracive EHS Solutions delivered comprehensive health and safety oversight for Web Summit Qatar 2026, managing safety across all project phases — from pre-production design through event operations and post-event dismantling.

Pre-Production

Load-In Build

Event Ops

Dismantling

Each phase required dedicated safety oversight, multi-stakeholder coordination, and proactive risk management to ensure zero major incidents throughout the entire project lifecycle.

Web Summit Qatar 2026 – Project Detail

1

Pre-Production Design

- Reviewed more than 45 booth designs and 4 lounge designs
- Assessed structural calculations
- Prepared Civil Defence documentation
- Reviewed RAMS for high-risk activities

2

Load-In and Build

- Conducted contractor safety inductions
- Supervised high-risk works and lifting operations
- Oversaw temporary structures
- Conducted routine inspections

3

Event Operations

- Crowd safety monitoring
- Emergency preparedness coordination
- Public health and hygiene oversight
- Coordination with security and medical teams

4

Dismantling

- Work at height monitoring
- Waste management oversight
- Vehicle movement controls
- Safety supervision through project closeout
